PERKINS BROS.

Stillwater Road

SAINT PAUL 9 • • • MINNESOTA

U. S. HIGHWAY 212

TELEPHONE: VIKING 1551

To Our Customers . . .

WE ARE happy to send you our twenty-third annual catalog of new and selected roses, perennials, day-lilies and annual flowering plants suitable for making your home grounds more beautiful. For your vegetable garden we will have plants of tomatoes (several varieties), eggplant, peppers, celery and cabbage. At this time we would like to express our appreciation for the business you have given us and for your continued confidence in our stock. We are endeavoring to merit a continuation of this confidence by producing better plants for your garden and by giving you better service. We have doubled our greenhouse space and will have a better and larger supply of annuals than has been possible for several years. You are welcome to visit our nursery at any time and see the various kinds of plants growing and blooming.

Roses are back, and we will have a nice selection of potted plants for our spring sales. Our potted Roses are well established and growing when you receive them and may be transplanted into your garden without danger of wilting. The pots are made of prepared paper and should be torn off when transplanting so as not to disturb the root system.

The popularity of garden Chrysanthemums continues. Their ease of culture and abundant bloom in the fall make them excellent plants for the glorious triumphant exit of the garden season. We grow many of them and know you will enjoy having some in your home yard. The Minnesota group of garden Chrysanthemums introduced by Dr. Longley of the University of Minnesota is very reliable for our climate. We have been growing all the varieties in this group and have always had a crop of flowers from them. If you have not had any of the Minnesota group of Mums, we recommend that you try the following fine early varieties: Butterball, Purple Star, Glacier, Dee Dee Ahrens, Maroon 'n' Gold, and Violet. Chippewa is a very fine Chrysanthemum but is a little later than those in the above list. Silver-Pink, introduced last year by Dr. Longley, is a welcome addition to his introductions. It is slow in propagating and the supply will be somewhat limited again this season.

The Chicago strain of garden Chrysanthemums (U. of C.) is a very fine selection. Many of them are a little late. We are growing and offering eleven of the earlier varieties that have done well in our locality.

The new Plumy or Fern-leaved Bleeding-heart, *Dicentra formosa*, Sweetheart, with its delicate fern-like leaves and abundance of white flowers, is surely a garden gem. Like its pink sister it prefers partial shade. The blooming period is very long.

For a continuous patch of dark blue throughout the growing season we recommend *Viola*, Catherine Sharp. It is a fine plant for edging. The long-stemmed blooms last several days if cut when freshly opened.

Last summer we tried *Nierembergia rivularis*, the white Trailing Cup-flower, and were well pleased with it. It is suitable for the front of the border. We are testing its hardiness under our winter conditions.

One of the newer good novelties is *Platycodon*, Shell-Pink. Its large, light pink, well-shaped flowers are produced over a long period. Our finest sweet-scented Pink is Perkins Double White. It is a neat grower with the plumarius type of foliage. The strong flower stems make it a good cut flower. A very fine Pink for the front or edge of your border is *Dianthus*, Little Joe. It is a dwarf, compact plant bearing very large, crimson flowers most of the summer.

A fragrant plant suitable for the back of the border is *Artemisia lactiflora*. Its feathery flowers may be used as a filler in bouquets and baskets. The white *Boltonia* always makes a nice display at our nursery during September and should be used more freely. It is similar to the small-flowered hardy Asters, is good for cutting and should be placed to the rear of the border. It appears to do best in full sun.

Another effective plant for the rear of the border is *Heliopsis* or Orange Sunflower, as it is sometimes called. While the plant is somewhat coarse in texture, its bright yellow, daisy-like flowers are freely borne from summer until frost and it helps to keep a continuous supply of color in the garden. May be used as a cut flower.

We are in most cases maintaining prices the same as last year. We regret that the increased cost of labor, packing materials, postage, in fact nearly every item we use in our business makes it necessary to make some adjustments. We invite you to come to our nursery and select your plants. As a little special inducement we are offering a free plant (our selection) for cash-and-carry orders for perennials amounting to \$3.00 or more.

Please note that our telephone number has been changed to Viking 1551.

We are revising our mailing list. If you wish to continue receiving our catalogs, please send us a post card or leave your name and address with one of our attendants when you visit us this spring. We discontinue sending catalogs if we have not heard from you for three years.

PERKINS Fine Outdoor ROSES

All our Roses are planted in the large Cloverset pots. These sturdy green plants are easily set out in your garden without danger of wilting or being disturbed.

NOTE: When Roses are to be shipped by express, please add 10c. for first plant, or 15c. for every 3 plants

BEAUTIFUL EVERBLOOMING HYBRID TEA ROSES

Each \$1.60; 3 for \$4.50; 10 for \$13.75

Autumn. An extraordinarily colored bloom of burnt-orange, streaked red. Long lasting; fragrant.

Briarcliff (Peters'). Long-pointed buds opening to handsome, fragrant, silvery pink flowers. Excellent for cutting.

Christopher Stone. A fine red variety, producing many fragrant, brilliant, glowing velvety scarlet-crimson blooms of good form.

Condesa de Sastago. A splendid double Rose with coppery pink blooms. Spicy scent. Strong grower.

Etoile de Hollande. One of the finest dark red Roses for general purposes. Very fragrant and a free bloomer.

Golden Dawn. Sunflower-yellow turning to lemon-yellow; Tea Rose fragrance. A profuse bloomer.

Golden Sastago. A good Rose for bedding. Flowers rich golden yellow. Free blooming; excellent foliage.

Joanna Hill. Long, large, pointed buds, opening to semi-double, long-lasting flowers of clear yellow. Flowers are borne singly and last a long time.

McGredy's Ivory. The large, creamy white flowers, with deeper yellow at the base, are of beautiful form and moderately fragrant. Plant vigorous and disease resistant.

McGredy's Scarlet. Striking scarlet flowers. Plants vigorous, with fine foliage; blooms abundantly.

McGredy's Yellow. Well-formed flowers of bright buttercup-yellow. Bronzy green foliage.

Melody. Flowers pink; full and fragrant. Bushy plant 2 feet tall.

Mme. Butterfly. The rich Indian-red buds open to well-formed flowers of bright pink, apricot and gold.

Mme. Jules Bouche. Long-pointed buds, excellent for cutting. These open to superb fragrant white flowers with a slight shading of blush-pink.

Mrs. Charles Bell. A sport of Radiance. Blossoms salmon-shell-pink, a pleasing fragrance.

Mrs. E. P. Thom. A nice free-blooming, lemon-yellow variety, sweetly scented. Excellent foliage.

Mrs. Pierre S. du Pont. A continuous bloomer. Reddish gold buds opening to exquisite flowers of deep golden yellow. Bush compact, with healthy, glossy foliage.

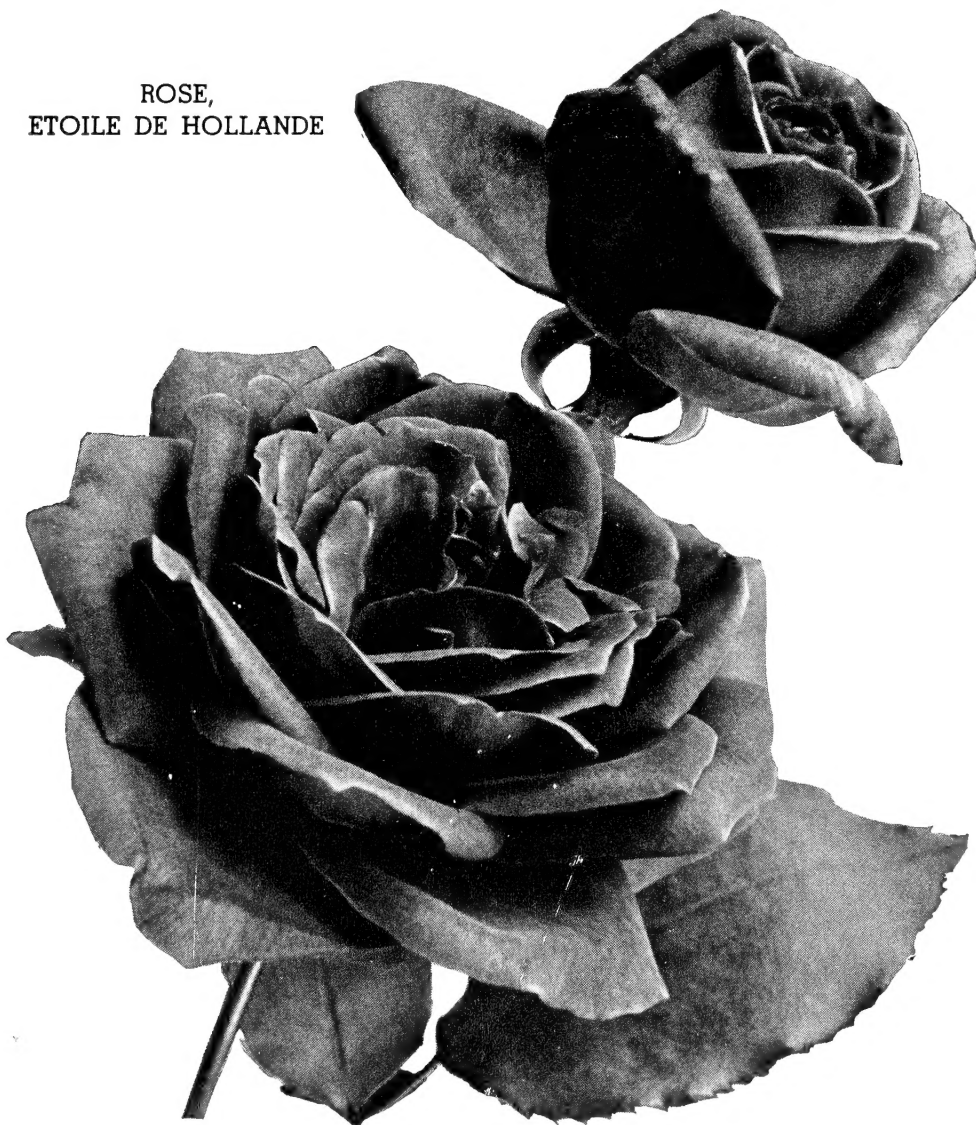

Mrs. Sam McGredy. Scarlet-copper-orange, heavily flushed with Lincoln-red on the outside; moderately fragrant. Free flowering.

Picture. A Rose of medium size but exquisite form. Blooms rich pink with warm undertones of salmon. Plant strong and vigorous.

Poinsettia. Brilliant red. A good grower and a fine cut flower.

President Macia. Very long buds. Petals pale flesh-pink with a yellow flush at the base. Fragrant.

ROSE,
ETOILE DE HOLLANDE

A BEAUTIFUL BED OF HYBRID TEA ROSES

Radiance. A vigorous-growing Rose with two-toned pink flowers, shades of carmine and yellow intermingling. Fragrant.

Red Radiance. Bright rosy red blooms on strong stems. Fragrant.

Sister Therese. A very dependable yellow Rose with long-pointed, perfectly shaped buds, streaked with carmine. Open flowers are lovely chrome-yellow.

Talisman. A very popular Rose with multicolored flowers of scarlet, orange and rich yellow. Fragrant and free blooming.

The Doctor. Beautiful silvery pink. Flowers large and intensely fragrant.

Ville de Paris. Upright plants and shapely flowers of rich buttercup-yellow. Fragrant.

Patented Varieties

CRIMSON GLORY. Pat. 105. Buds long-pointed. The large, semi-double, deep velvety crimson flowers are very fragrant and long lasting. Foliage abundant and leathery. Each \$1.85; 3 for \$5.25.

PEACE. Pat. 591. The All-America Rose Selection of 1946. Large yellow buds opening to pale yellow changing to soft rose and later to white with pink scallops. Foliage dark glossy green. Each \$2.25.

SANTA ANITA. Pat. 539. Long-pointed buds unfolding into beautiful flowers of pure peach-blossom-pink. Color does not bleach out. Plants strong and very free blooming. Each \$1.60.

ROSE,
PEACE

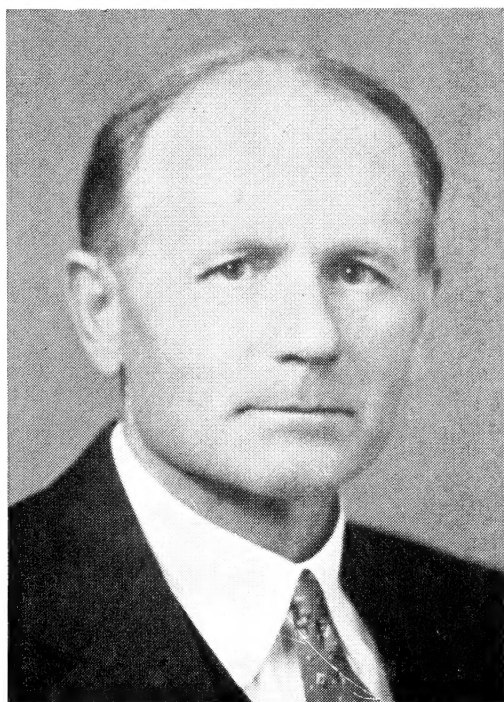

NOTE: To keep Rose foliage free from disease and eating insects, dust the plants about every 10 days with a mixture of 9 parts dusting sulphur and 1 part arsenate of lead. If troubled with aphids, spray with a nicotine solution, following the instructions on the container.

CHRYSANTHEMUM, DEE DEE AHRENS

THE MINNESOTA GROUP

Here are offered twenty-four new varieties of garden Chrysanthemums developed by Prof. L. E. Longley at the University of Minnesota. They are admirably adapted to locations subject to early frosts because of their extra early flowering habit, long blooming period, unusual colors and high degree of hardiness. All are suitable for cutting and have long-lasting qualities as cut flowers. Time of planting has some influence on earliness of bloom.

DR. L. E. LONGLEY

We are propagating all varieties of Chrysanthemums originated at the University of Minnesota by Dr. Longley.

Chrysanthemums

The Glory of Your Autumn Garden

All plants from 2½-inch pots

1941-1946 Introductions

Each 40c.; 3 for \$1.10; 6 for \$2.00

Aurora. A low, compact type of plant. The flowers, borne in masses, are 2¼ inches in diameter, and dragon's-blood-red in color, becoming lighter as they age. They resemble those of Harmony, but are larger, more double, and brighter.

Boreas. An early double white. The flowers are about 2 inches in diameter and are produced in great profusion on long stems suitable for cutting. In cool weather the flowers take on a pinkish tinge. The plant is strong and of medium height.

Butterball. Low, compact plant with flowers borne freely on moderately long stems. The flowers are ball-like in form, with rays incurved, 2½ inches in diameter, dark lemon-chrome in color. Starts blooming about August 15. An outstanding variety in our trials.

Chippewa. Bushy plant 20 inches tall or more, with many stems. Flowers aster-purple, 2¾ inches across, in large clusters; semi-double to double, aster-like and incurved. Very showy and good for cutting. Early to midseason. A fine variety and very popular.

Dee Dee Ahrens. A tall, upright plant bearing a multitude of flowers on long, slender, stiff stems. Flowers double, 2 to 2¼ inches in diameter, pure white. Midseason to late.

Duluth. A rather tall, upright type with semi-double, lemon-yellow flowers 2 inches in diameter. Very floriferous, blooming early and continuing for a long period.

Glacier. A large-flowered type; upright habit with double, clear pure white flowers 3 inches in diameter, carried in loose clusters on long stems. A very good variety.

Harmony. In a general way this would be classed as a bronze-flowered variety, although the color of the flowers on the same plant varies from yellow to Brazil-red. During the early season it is yellowish, later strawberry-pink and with the cool weather it becomes Brazil-red. At times all the colors are present at once. The plant form is similar to that of the Cushion type; flowers 2¼ inches in diameter.

Maroon 'n' Gold. This variety forms a rather low plant, bearing the flowers in large trusses. The blooms are large, 3½ inches or more in diameter, full, double, incurved. Rays are Brazil-red to maroon in color above, and golden on the under side. Blooms early and freely. Very popular.

Moonglow. A low, bushy plant with dark green, glossy leaves. An early bloomer having double, deep lemon-chrome flowers 1¾ inches in diameter, covering the plant for several weeks.

Pipestone. A low, robust and spreading type of plant with semi-double Brazil-red to pinkish scarlet flowers that reach 2¾ inches in diameter. A very free-blooming, early variety.

Purple Star. Very tall and upright in growth, with long stems; floriferous. Bright dahlia-purple flowers, semi-double to nearly double, the rays formed in such a way as to make the flower star-like in appearance; 2 inches in diameter. Blooms over a long period, from midseason to late, and is suitable for cutting.

CHRYSANTHEMUM, VIOLET

Red Gold. Plant medium tall, very stiff and upright. Flowers double, 2 inches in diameter, scarlet to Brazil-red, resembling pompon dahlias and somewhat like Early Bronze Mum, but brighter and more reddish. Early to midseason or later.

Redhawk. Plant upright in habit, of medium height. Flowers are in clusters on long stems, double, with some rays quilled, 2 inches or more in diameter. The color is dragon's-blood-red to Brazil-red. Starts blooming in mid-August.

Red Wing. A low, upright plant with rather long stems. The semi-double, Pompeian-red flowers are $1\frac{3}{4}$ inches in diameter and are produced very freely.

Redwood. A low compact type of plant, bearing semi-double flowers 2 inches in diameter. The color varies from carmine to oxblood. The season is mid-August to frost.

Snowball. The plant is medium in height and loose in habit, with double flowers which are ivory at first, later becoming pure white. The blooms are $2\frac{1}{2}$ inches in diameter. Early.

Sun Red. Medium tall plants with long stems and large, semi-double flowers over 3 inches in diameter. Habit of plant and form of flowers much like Chippewa but color is bright Brazil-red. Blooms sparingly early in the season but very heavily midseason to late. An excellent variety to brighten the late garden.

Violet. Plant rather spreading, recumbent the first year but very stiff and upright and moderately tall the second year. Blooms are fairly abundant. Very full, double flowers, dahlia-like, incurved, deep amaranth-purple to pansy-purple, 3 inches in diameter. Midseason to late.

Waterlily. Plant is upright, narrow, medium tall. Semi-double, white flowers with four rows of rays. Suggests a waterlily in full bloom. Early.

Welcome. One of the earliest to bloom. The plant is irregularly bushy and rather low. The bright mal-low-purple flowers on long stems are semi-double and measure $1\frac{3}{4}$ inches in diameter.

1947-1948 Introductions

Brilliant. A cushion type, very compact, low and flat in growth, covered with a mass of double, flat flowers with rather narrow rays, bright Brazil-red, $2\frac{1}{2}$ inches in diameter. Resembles Aurora but flowers are more double and brighter red. Midseason. Each 50c.

Silver-Pink. Plant upright in growth, of medium height. Flowers in large clusters on long stems, double, $2\frac{1}{2}$ inches in diameter, soft amaranth-pink to Tyrian-pink with a silvery sheen. Good cut-flower type. Early to midseason. Each 75c.

45-87-6. An upright, spreading type of medium height, bearing large trusses of $2\frac{1}{2}$ -inch, nearly double flowers on long stems; rays narrow, somewhat twisted; color carmine to oxblood. Early to midseason. Holds color well in hot weather and is a very profuse bloomer. Each 85c.

COLORFUL CHRYSANTHEMUMS *for a Showy Garden*

The Chicago Strain

Charles Nye. Plant medium height; deep green foliage. Large, 3-inch, fully double, rounded flowers of rich buttercup-yellow. Each 60c.

Courageous. Bright dark ruby-red blooms, $3\frac{1}{2}$ inches in diameter. Sept. Each 60c.

Early Harvest. Plant low growing, with double flowers of glowing mahogany-orange, $2\frac{1}{2}$ to 3 inches in diameter. Aug. to Oct. Each 50c.

Glowing Coals. A good early red. Bright cherry-red with orange reverse. Sept. Each 60c.

Harbinger. Double flowers with incurved petals of primrose-yellow. Flowers borne in clusters. Each 40c.

Heatherbloom. Plant vigorous, of medium height. Flowers double, $2\frac{1}{4}$ inches in diameter, heather-pink. Each 50c.

Olive Longland. A grand double flower with petals slightly incurved; apricot toned salmon-pink. Sept. Each 50c.

Polar Ice. Clear, glistening blue-white flowers $2\frac{1}{2}$ to 3 inches across; upright stems 20 inches tall. Each 40c.

Robert Brydon. Double dark garnet-red flowers $2\frac{1}{2}$ inches across. Plant has a dense bushy habit 18 to 20 inches tall. Free blooming. Each 50c.

Southwind. Sturdy branched plants bearing many Chinese-red flowers. Sept. Each 50c.

Tangerine. A 1947 introduction. Double; brilliant Spanish-orange. Each 65c.

Zantha. Attractive canary-yellow, ball-shaped flowers. Each 50c.

One Chrysanthemum (our selection) free with cash and carry orders over \$3.00

GOOD POPULAR VARIETIES

From 2½-inch pots. Each 40c.; 3 for \$1.10;
6 for \$2.00, except where noted

Algonquin. 1½ ft. Clear yellow, double flowers 2½ inches in diameter. September.

Autumn Sunlight. 30 in. The fully double flowers, borne on long stems, are 2½ inches in diameter and a very brilliant yellow. Blooms the latter part of September.

Avalanche. 2 ft. A desirable early-blooming, large-flowered, double white variety, the center petals being cream-colored. The 3½-inch flowers are borne on strong stems; fine for cutting. Admired by all visitors at our nursery.

Charm. 18 in. Foliage deep green. Fully double, yellow flowers about 2 inches across.

Chris Columbus. 30 in. A new white pompon with yellow buds; long strong sturdy stems. Especially good for cutting. Said to be super hardy. We would class it as late.

Eugene A. Wander. Extra-large, double, glistening yellow flowers on bushy, 18-inch plants. A very popular variety.

Garden Queen. 20 in. A striking combination of large salmon-pink flowers suffused with crimson-rose, 3 inches in diameter. Has done very well at Duluth.

Gold. 30 in. Large, 3 to 4-inch, double flowers of pure gold, blooming about the end of September.

Janet. 20 in. Plant dwarf and spreading, with masses of 3-inch, double incurved, rosy gold flowers.

Little Eskimo. Plant low growing. The double, pure white flowers are ball-shaped, 1½ inches in diameter. Similar to Pygmy Gold and suitable for edging.

Major Cushion. Low-growing, compact plants with salmon-pink flowers. Tends to be late but buds are quite frost-hardy.

Margaret Ann. 28 in. An early variety with 3-inch, rosy pink flowers. Sturdy stems.

Peggy. 24 in. Rosy pink flowers 2 inches in diameter. Similar to Heatherbloom. Early. Good for cutting.

Pure Gold. Plants 18 inches to 2 feet tall, having fully double yellow flowers up to 3 inches in diameter. Early.

Pygmy Gold. A dwarf pompon type producing quantities of miniature blossoms. The color is clear golden yellow. Commences to bloom in early September.

Red Velvet. 2 ft. A fine full double crimson Chrysanthemum. Late September.

CHRYSANTHEMUM, EUGENE A. WANDER

Santa Claus. Grows taller than the Cushion Mums and produces an abundance of dark red flowers. Late.

September Bronze. Pompon blooms with the warm bronze tints of autumn; petals have a golden edge.

September Dawn. Large, double, rose-pink flowers. September.

Sunapee. 24 in. From the University of New Hampshire. Fully double, rich gold pompon flowers on good stems. Early.

Yellow Avalanche. Similar to Avalanche but clear soft yellow. Each 75c.

41-78A-35. A low-growing plant that blooms early and freely. Spoon-type flowers of a pink shade.

5302. Large, bushy plants about 2 feet tall, spreading. The single flowers, nearly 3 inches in diameter, are of a beautiful salmon-pink with yellow center. Many have two rows of petals. Starts blooming in September. Made an unusually attractive display at our nursery.

Low-Growing Cushion Chrysanthemums

Each 35c.; 5 for \$1.50

Bushy plants of low to medium height, producing an abundance of flowers. These varieties are also sold under popular "trademark" names.

Chrysanthemum Special

We start many varieties of Chrysanthemums
in 2-inch pots and offer these smaller bloom-
ing-size plants at

20c. each, cash and carry
6 for \$1.40 if sent by mail

(Not less than six sold)

Colors available: Bronze, Pink, Purple, Red,
White, Yellow. All plants will be named.

Cushion Mums are included in this offer but
will not be sent unless requested.

Perennials . . .

CHOICE AND SELECTED VARIETIES

Achillea (Yarrow)

Ptarmica, Snowball. 18 in. June to Sept. An improved small, double-flowered white Yarrow growing in ordinary soil. Suitable for cutting, and is fine as a filler in bouquets. Each 40c.

Aconitum (Monkshood)

Fischeri. 2 to 3 ft. Sept. Blue flowers shaped like a monk's hood. The plant prefers a rich soil and will grow in sun or shade but the flowers will last longer in a shady place. It needs some winter protection. As Aconites contain poisonous substances, they should be kept away from children. Each 50c.

Alyssum (Basket of Gold)

Saxatile compactum. 1 ft. One of the earliest flowering plants; suitable for the border or the rock-garden. It has bright spreading clusters of golden yellow flowers. Foliage gray-green. When ripe the seed-pods have a lace-like appearance and may be used in winter bouquets. Each 40c.

Anchusa (Alkanet)

Dropmore Variety. 3 to 5 ft. Blooms in early summer and later if first flowers are cut as soon as wilted. Foliage rough and hairy, slightly gray. Flowers rich gentian-blue, in loose panicles. A rather coarse-appearing plant but fine in masses or as a border. Does best in partial shade. Each 40c.

Myosotidiflora. A dwarf form from Russia. Clusters of large leaves and bright blue, forget-me-not-like flowers. Each 50c.

Anemone (Pasque Flower)

Pulsatilla. 1 ft. A lovely harbinger of spring. Deep blue, bell-shaped flowers, followed by tasseled seed pods which are decorative in themselves. Good drainage is necessary. Add some crushed oystershell to provide lime. Each 40c.

Anthemis (Yellow Daisy)

Moonlight. 2½ ft. A choice variety of the hardy Marguerite producing pale yellow flowers over 2 inches in diameter, all summer. Each 40c.

Aquilegia (Columbine)

Blue King. Large flowers of medium blue. Each 40c.

Copper Queen. 18 in. Flowers copper-red with straw-colored corolla. Each 40c.

Crimson Star. A dwarf variety with large crimson and white flowers. Each 40c.

Longissima. Yellow flowers with very long spurs. Each 40c.

Mrs. Scott Elliott's Hybrids. A refined long-spurred strain. Includes many choice clear colors. Each 40c.

Snow Queen. Extra large, pure white flowers. Each 40c.

Arabis (Rock Cress)

Alpina, Snowcap. 6 in. A low-growing plant especially suited for edging or the rock-garden. Foliage is gray-green. In early spring the plant is covered with masses of white flowers. Can be used for cutting. Each 40c.

Rosea. Similar to above. Flowers pink. Each 50c.

Armeria (Sea-Pink)

Armerias prefer dry sandy soil in a sunny location

Lauchiana. A tufted plant with grass-like leaves and bright rosy flowers all summer. Low growing. Each 40c.

Tall Hybrids. 18 to 24 in. June-Oct. Large flowers of white, rose, or pink shades. Each 50c.

Bees' Ruby. Bright rosy red flowers. Each 40c.

Asters (Michaelmas Daisies)

Blooming-size plants from 2½-inch pots.

Adorable. 4 to 5 ft. Sept.-Oct. A hardy Aster with habit and growth similar to that of Harrington's Pink. Flowers salmon-pink. Each 40c.; clumps 60c.

Beechwood Charm. A semi-dwarf variety with small, brilliant crimson flowers which completely cover the plant. Very showy. Each 40c.

Blue Gown. 3 to 4 ft. Flowers medium blue, on tall arching stems. Each 35c.

Blue Plums. Rich deep purple, nearly double flowers. Suitable for cutting. Each 40c.

Crimson Beauty. A new large-flowered crimson-red Aster. Each 40c.

Dr. Eckener. Another new red Aster from Holland. Clumps 60c.

Hilda Ballard. Large flowers of beautiful opalescent mauve. Each 40c.

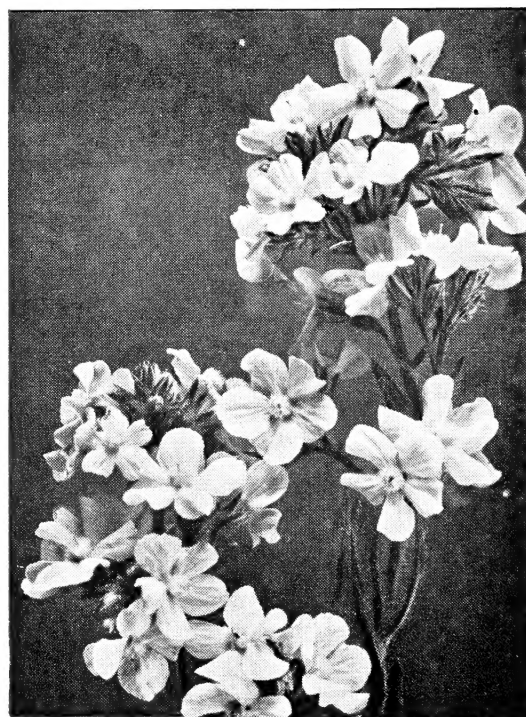

Mt. Everest. 3 to 4 ft. An outstanding white Aster. Each 35c.

Palmyra. Medium height; semi-double, pure pink flowers making up into perfect pyramids. Each 40c.

Pink Party. One of the best pink Asters. Florets form a prolific, pyramidal head. Each 40c.

Purple. 5 ft. Large purple flowers. Large clumps 40c.

Violetta. 2 ft. During September the plant is completely covered with semi-double, deep rich blue flowers. Each 50c.

ANCHUSA, DROPMORE VARIETY

Artemisia (Sage-Brush)

Lactiflora. 3 ft. Aug.-Sept. A tall-growing plant with finely cut foliage and heads of fragrant white flowers. Good for cutting. Each 40c.

Silver Beauty. 3 ft. A white-leaved plant used for contrast. The silvery flowers are fine in bouquets, and may be dried for winter use. Each 40c.

Astilbe

Fanal. 1 to 2 ft. Feathery spikes of fiery crimson flowers in May and June. Foliage attractive and good looking at all times. Each \$1.00.

Gloria. 1 ft. A beautiful low-growing variety producing many spikes of pink flowers. Each 50c.

Baptisia (False Indigo)

Australis. 3 to 4 ft. Forms a spreading bush with dark bluish green leaves and bears lupin-like, blue flowers. The seed-pods may be used for winter bouquets. Perfectly hardy. Each 50c.

Betonica (Betony)

Grandiflora. 2 ft. June-Aug. An attractive border perennial with tufty dark green foliage and a profusion of rose-purple flowers on long stems. Good for cutting. Each 50c.

Boltonia (False Chamomile)

The Boltonias are of easy culture, growing in any soil and even in partial shade. To produce large flowers divide the clumps every three years, or cut out some of the stems in the spring. The head of the plant is wide spreading and bears many single aster-like flowers. 3 to 4 ft. high. **Pink** or **White.** Each 35c.

Callirhoe (Poppy Mallow)

Involucrata. A spreading, vine-like plant with small poppy-like, crimson flowers. Not over-hardy. Each 40c.

Campanula

Carpatia Hybrids. Harebell. 1 ft. A very satisfactory flower for the rockery or edge of the hardy border. It is perfectly hardy, and will grow in either sun or shade. The bell-shaped flowers are borne on long slender stems from early summer until frost. Each 40c.

Carnation

Cynthia. June until frost. A new Carnation for the garden, free flowering and fine for cutting. Pure shrimp-pink, waxy petals, entirely smooth at the edges. 2½-in. pot size, each 40c.

Crimson King. A green-leaved double red Pink or garden Carnation; blooms all summer. Only semi-hardy but a very satisfactory plant. Each 30c.

White Gold. Regular Carnation foliage with well-formed heads of white gold. Blooms all summer. Long stems for cutting. Each 40c.

Mixed Colors. Each 40c.

Catananche (Blue Cupid's Dart)

Coerulea. 2 to 2½ ft. July-Oct. A fine border perennial producing an abundance of cone-like flowers. Foliage silvery green. Flowers lavender-blue, about 1½ inches in diameter. Each 40c.

Coreopsis

Lanceolata grandiflora, Mayfield Giant. 2 to 3 ft. Large, bright yellow daisy-like flowers on long stems all summer. Each 35c.

Verticillata, Golden Shower. 18 in. This semi-dwarf, golden yellow Coreopsis is always in bloom. Flowers 2 inches in diameter. Each 40c.

Centaurea (Knapweed)

Macrocephala. 3 to 4 ft. July-Aug. A rugged, upright-growing plant, bearing large thistle-like golden yellow flowers. May be used as cut-flowers. Each 35c.

Cerastium (Snow-in-Summer)

Tomentosum. Low-growing edging plant or for the rock-garden. Silvery white foliage with white flowers. Each 40c.

White Daisies

Alaska. 2 to 3 ft. Summer. One of the best Shasta Daisies. Large white flowers, 4 to 5 inches in diameter, on long stems. Each 35c.

Edward VII. 2 to 3 ft. Large flowers on stout stems. Each 35c.

Hartje and Elder. A very early Shasta with medium-sized flowers 3 to 3½ inches in diameter on 20-inch stiff stems. Each 35c.

June Marguerite. A nice-sized Daisy on long stems. Free flowering. Each 35c.

Maximum, Conqueror. 2 to 3 ft. Pure white flowers on stiff stems. Each 35c.

New White Daisies

From 2½-inch pots

Double Supreme. A fine semi-double Daisy of good substance. Flowers 3½ inches, on 24-inch stems. Each 40c.

Diener's Giants. A mixture of large single and double Daisies. Field clumps, each 40c.

Edgebrook Giants. One of the largest new Shasta Daisies. The single blooms are 6 to 7 inches in diameter on good stems. Free flowering. Each 60c.

Giant Chiffon. Pure white, fully double flowers on long stems. Each 50c.

Majestic. Large white flowers, 5 to 6 inches in diameter, on straight long stems. A healthy grower. Each 60c.

Marconi. Very large flowers. Field clumps from seed. Each 50c.

Beautiful Delphiniums

Giant Pacific. This is an American production, noted for its long spikes and huge flowers of fine texture and color. It is more resistant to disease than many other strains.

Galahad. Pure white. Each 60c.

Guinevere. Light pink-lavender with white bee. Flowers 2½ to 3 inches in diameter. Each 50c.

Summer Skies. Light blue with white bee. Flowers medium size. Very prolific. Each 50c.

Mixed Shades. Each 50c.

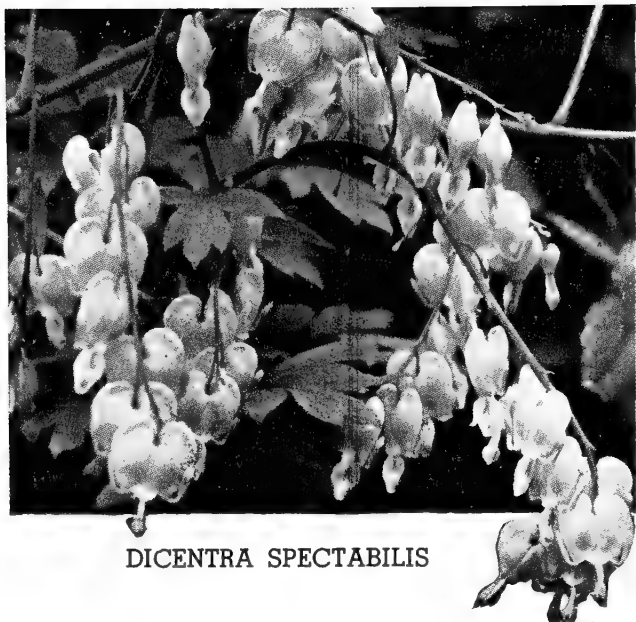

Blackmore & Langdon. An unsurpassed strain of English hybrid Delphiniums. Every plant produces an excellent spike of flowers. The color-range is fine and the colors are clear and bright. There is a good proportion of large double and semi-double flowers. Each 40c.

Belladonna, Cliveden Beauty. 2 to 3 ft. An improved strain of this ever-popular light blue Delphinium. The flowers are not as large as in the hybrid strains, but the plant bears many more spikes of flowers. Each 35c.

Belladonna, Fanny Stormonth. Light azure-blue. An English strain. Each 40c.

Bellamosum. Dark blue, similar to Belladonna. Each 35c.

Wrexham or Hollyhock Strain. A well-known English strain of hybrid Delphinium. Mixed colors. Each 40c.

DICENTRA SPECTABILIS

Dicentra (Bleeding-Heart)

Spectabilis. 1 to 2 ft. Spring. Favorite hardy perennial plants with deeply cut foliage and long racemes of graceful pink heart-shaped flowers. Needs part shade. Each 85c.

Eximia. Plumy or Fern-leaved Bleeding-Heart. 15 in. Pink blooms all summer. Foliage finely cut and very attractive. Plant in a shady place away from strong wind. Each 50c.

Formosa, Sweetheart. Plant similar to Eximia. The white flowers are delicately fragrant, on 15-inch stems. Plant in a shady place. Each \$1.50.

Dianthus, Old Spice

(Pat. 499)

A choice hybrid old-fashioned garden Pink with outstanding qualities. Its habit of growth is neat and cushion-like; flower stems about a foot tall. The beautiful double carnation-like flower is a choice salmon-pink and very fragrant. Blooms profusely. Each 60c.; 3 for \$1.50.

Dianthus (Pinks)

The delightful sweet-scented garden Pinks are always welcome in any garden. They are easy to grow and give a large number of flowers for cutting.

Deltoides. Maiden Pink. Small delicate blooms carried above fine feathery foliage. Suitable for edging or the rock-garden. Mixed colors. Each 35c.

Jock Hybrids. A low-growing double-flowered Pink. Blooms very profusely. Color deep pink. Each 35c.

Perkins' Double White Pink. Blue-green foliage. Flowers double, 2 inches in diameter, white, slightly speckled with red in the center. Fragrant. Blooms most of the season. Each 40c.

Plumarius semperflorens. 1 ft. An everblooming hardy garden Pink. Blooms most of the summer. Double and single flowered. Mixed colors. Each 35c.

Scoticus. Self colors of various tints of pink, rose, salmon and white. Mostly double flowered. Free flowering. Each 40c.

Spring Beauty. Double-flowered grass Pinks in a beautiful range of color. Very fragrant. Each 35c.

Winteri. A Pink of striking habit. Fragrant blooms of pure color. Compact habit. Each 40c.

New Dwarf Pinks

Bobby. 8 in. A compact-growing gem with glaucous foliage and large flowers of deep pink with crimson eye. Each 40c.

Little Joe. 6 in. A fine free-blooming dwarf Pink with large crimson blossoms. Each 40c.

Tiny Rubies. The miniature plants produce carnation-like pink flowers on stems 4 to 5 inches high. Each 40c.

Special Collection of Pinks

1 each of the new dwarf Pinks, \$1.10

Euphorbia (Spurge)

Polychroma. 1 ft. A formal plant forming a hemispherical clump with yellow flowers in June. Each 50c.

Funkia (Plantain-Lily)

Lanceolata. Aug.-Sept. Suitable for shade or sun. Flowers lavender. Each 35c.

Spp. Similar to the above but with larger, wider leaves and large flowers on stems 3 feet tall. Each 40c.

Subcordata grandiflora. Aug. Large leaves; pure white, lily-shaped flowers. Plant in shade. Each 50c.

Thomas Hogg. New. A strong-growing variety for shade or sun. Likes moisture. Large clear leaves with a silver edging; lavender flowers. Each 40c.

Variegata. Variegated foliage and lavender flowers. Each 40c.

Gaillardia (Blanket-Flower)

Showy, very free-blooming perennials, growing from 2 to 3 feet tall.

Dazzler. Large golden yellow flowers; rich maroon center. Each 40c.

Goblin. A dwarf variety of Gaillardia. Plant vigorous, with many showy, deep red flowers with yellow border. Each 40c.

Monarch Strain. A large-flowered strain. Each 40c.

Portola Hybrids. The flowers are very large, brilliant scarlet intensified by golden yellow tips. Each 35c.

Yellow. A yellow-flowered form that has come through several winters at our nursery. Each 50c.

Year-old plants, mixed varieties, blooming size, each 20c.

Geum (Avens)

Fire Opal. Dazzling orange-scarlet flowers often 3 inches across, produced abundantly. Very hardy. Each 50c.

Wilton Ruby. Rich ruby-red flowers. Each 50c.

Gypsophila (Baby's-Breath)

Bristol Fairy. We recommend this choice double-flowered variety as being far superior to the common single Babys-Breath. Blooms all summer. Established plants are about 3 feet in diameter when in bloom. Large plants, each 75c.

Mangini. Masses of large and pretty pink and white flowers, valued for misty border effects. Earlier than Oldhamiana. Each 40c.

Oldhamiana. Tangles of airy, misty light pink blossoms with white throat. Florets $\frac{1}{4}$ inch in diameter. Blooms in fall. Each 35c.

Rosy Veil. A dwarf pink continuous-blooming Babys-Breath. Each 50c.

Snow White. An improved single-flowered type and more lasting. Each 40c.

Heliopsis (Orange Sunflower)

Lemoine's Giant. 3 ft. A very brilliant border plant resembling a small sunflower. Bright yellow flowers, single to double. Blooms over a very long period and makes a good display in the border. Suitable for cutting. Each 40c.

Heliotrope

Valeriana officinalis. 3 to 4 ft. A strong-growing plant for the back of the border, producing many heads of rose-tinted white flowers in June and July with strong Heliotrope odor. Each 40c.

Heuchera (Coral-Bells)

Perkins Red. A good red variety. Each 50c.

Sanguinea. 1½ ft. July-Aug. Crimson-scarlet flowers. Each 40c.

Isatis (Golden Babys-Breath)

Glauca. 2 to 4 ft. Foliage silvery gray-green. Cloud of fine yellow flowers in July. Each 35c.

Lavandula (Lavender)

Munstead Strain. Used in making sweet bags and sachets. Large, sweet-scented blue flowers in abundance. Early blooming. Each 50c.

Liatris (Kansas Gayfeather)

A clump of Liatris with its characteristic grass-like leaves and 5-foot spikes terminated with purple flowers in August will help to make your garden different. Each 40c.

Linum (Flax)

Perenne. Blue Flax. Bush-like plants for an open, warm place. Plant early for best results. Produce an abundance of blue flowers daily throughout the summer, which usually close about noon. Very showy when planted in masses. Each 40c.

Lupinus (Lupine)

Russell Hybrids. 3 to 5 ft. Long beautiful spikes of flowers. Many colors. Each 50c.

Lythrum (Loosestrife)

Morden's Pink. A choice member of the Lythrum family. The flower spikes are a lovely clear pink that blends well with the other colors in the garden. Will grow in wet or dry places. Each 50c.

The Beacon. 3 ft. July-Sept. Long-lasting spikes of large clear deep rosy red flowers. Each 50c.

Mertensia (Virginia Bluebells)

A beautiful early-blooming plant, with blue bell-like flowers fading to pink. Foliage disappears during the summer. Potted plants. Each 40c.

Monarda (Bergamot or Bee-Balm)

Scarlet. 2 to 3 ft. June-Aug. Attractive plants for the semi-shady or sunny border, bearing brilliant scarlet flower heads. Foliage fragrant. Each 35c.

Myosotis (Forget-Me-Not)

6 in. Everyone is familiar with the charming bright blue flowers of the Forget-Me-Not. They prefer partial shade and plenty of moisture. Blooms all summer. Each 35c.

Nepeta (Ground Ivy)

Mussini. A good plant for permanent edging. Foliage soft gray-green. Lavender, spike-like flowers. Each 40c.

Nierembergia (Trailing Cup-Flower)

Rivularis. A charming dwarf creeping alpine plant, bearing large, creamy white, cup-shaped flowers all summer. Give plenty of water in dry weather. Each 45c.

Papaver (Oriental Poppies)

All Poppies are in Cloverset pots. (Cannot be sent by mail.)

Helen Elizabeth. Large La-France-pink flowers on 30-inch stems. 3-inch pots. Each 40c.

Olympia. Large, semi-double, flame-scarlet flowers. Each 50c.

Salmon Glow. A fine double salmon-orange. Flowers large. Each 75c.

Hybrids, Large-flowered. Mixed colors. Each 50c.

Pardanthus (Blackberry-Lily)

Chinensis. An odd and unusual perfectly hardy perennial with green iris-like leaves. The small, daintily black-spotted orange lily-like flowers are borne on 24-inch stems. Seedpods, when ripe, resemble blackberries. Each 40c.

Platycodon (Chinese Balloon-Flower)

Grandiflorum. The Chinese Balloon-Flower gets its name from the interesting balloon-shaped buds which open into large bells. It blooms during the summer when there is likely to be a scarcity of flowers. The blooms are borne on 2 to 3-foot spikes and last a long time. All dead blossoms should be removed. As the Platycodons do not start growth until late in the spring, part of the old stem should be left on in the fall when cleaning the garden or a stake should be placed near it. This will prevent destroying the plant when working in the garden early in the spring. **Blue.** Each 35c. **White.** 40c.

Double. Flowers have two rows of petals. **Blue.** Each 50c.

Shell-Pink. A delicate shade of pink. Each 40c.

Physostegia (False Dragonhead)

Summer Glow. Good plants for the sunny border; of easy culture. The deep pink flowers are borne on terminal spikes, and will last a long time when cut. Each 40c.

PAPAVER (Oriental Poppy), OLYMPIA

LYTHRUM

Pentstemon (Beard-Tongue)

Garnet. A large-flowered dark red Pentstemon, blooming continuously until frost. Keeps well as a cut-flower. Needs winter protection. Not hardy in Minnesota except under ideal conditions, but is worthy of a place in your garden and should give an abundance of flowers the first season. Each 50c.

Primula (Primrose)

Old-time garden favorites. Primroses prefer a situation protected from noon and afternoon sun and drying winds. Coolness, some shade, ample moisture, and medium light woodland soil gives best results.

Mixed Varieties. Each 35c.

Pyrethrum (Painted Daisy)

Showy daisy-like flowers on long stems. Suitable for cutting.

Brilliant. Double flowered; red. Each 75c.

Robinson's Hybrids. Large single flowers in shades of red, pink, and white. A fine strain. Each 40c.

Rose. Mixed shades of pink. Each 35c.

Spring-blooming Phlox

PHLOX subulata. Moss Phlox. A very attractive and satisfactory plant for the rockery or edge of the hardy border. Plant in groups of 3 to 6 plants and you will have a fine display of color about the end of May. Will grow in partial shade. **Rose, White and Purple.** Each 35c.

Summer-flowering Phlox

Groups of Phlox are especially useful for keeping your garden cheerful and colorful during the summer.

Aetna. A good red variety. Each 40c.

Africa. Brilliant carmine-red with blood-red eye. Well-shaped flower heads; large florets. Each 45c.

Augusta. Pat. 252. A strong-growing variety of medium height, with bronze-green leaves. Flowers brilliant cherry-red. An outstanding Phlox. Each 60c.

B. Comte. One of our standard Phlox. Flowers a rich dark amaranth-red. Each 40c.

Border Queen. An outstanding dwarf Phlox with large florets of watermelon-pink. Has been very satisfactory in our garden trials for several years. Each 45c.

Charles H. Curtis. A new Phlox of great merit. A strong grower with good clean foliage; flowers sunset-red. Each 45c.

E. A. Farrington. A popular salmon-pink Phlox. Each 40c.

Enchantress. Bright salmon-pink with dark eye. Each 40c.

Ethel Pritchard. French mauve, almost blue. If possible, plant next to yellow or white flowers. Each 40c.

Graf Zeppelin. White with a vermilion-red eye. Each 40c.

Hauptmann Koel. A fine dark red. Each 40c.

Leo Schlageter. Brilliant orange-scarlet. Each 40c.

Lillian. A beautiful early salmon-pink. Each 40c.

Mary Louise. Pure white flowers, very large. Clean foliage and a prolific bloomer. Each 45c.

Miss Lingard. The best early white; pale pink eye. Continuous blooming throughout the summer. A most desirable variety. Each 40c.

Mrs. Jenkins. A standard late-blooming clear white. Each 35c.

Pinkette. A very light pink. Florets large. Each 40c.

Rheinlander. Fine old-time variety. Salmon-pink. Each 35c.

Ruby Lee. 2 ft. Large plum-red flowers. Healthy, vigorous growth. Each 50c.

Sonja. Delicate blue florets with pale yellow centers. Each 40c.

Salmon Glow. Flame-pink with salmon. Each 40c.

Widar. Violet florets with a clear white eye. Each 40c.

Ranunculus (Double Buttercup)

An upright double yellow Buttercup, blooming in early June. Flowers similar to the double feverfew. Good for cutting. Each 35c.

Rudbeckia (Coneflower)

Golden Glow. 6 ft. A good plant for the rear of the garden. Bright yellow flowers similar to small double chrysanthemums. Each 35c.

The King. An improved purple Coneflower with broad, deep crimson-red petals and rich coppery bronzy cones. Each 50c.

White Lustre. Large white flowers. Grows about 3 feet high and blooms over a very long period. Flowers last a long time when cut. A good novelty. Each 65c.

Salvia

Pratensis. 2 ft. Showy dark blue flowers in June. Each 40c.

Scabiosa (Pincushion-Flower)

Caucasica. 18 in. Lovely daisy-like flowers of a soft shade of lavender. Each 35c.

Sedum (Stonecrop)

Spectabile, Brilliant. 1½ ft. This group of Sedums with its thick heavy stems, leaves and flowers offers a strong contrast to other garden plants. Foliage light green; flowers deep rose-pink. Keep a long time as a cut-flower. Each 40c.

Spectabile variegatum. Foliage variegated green and white. Each 40c.

Spurium. A low-growing Sedum suitable for ground-cover or the rockery. Red flowers in July. Each 35c.

Sempervivum (Hen and Chickens)

Tectorum. Rosettes of dark green leaves with reddish tips. Small rosettes grow out in all directions from the parent plant. Clusters of rosettes. Each 35c.

Spiraea (Meadowsweet)

Filipendula flore-pleno. 18 in. June–July. Numerous corymbs of double white flowers rise above a low-growing cluster of fern-like leaves. Each 40c.

Statice (Sea-Lavender)

Latifolia. 2 ft. Summer. The leathery leaves form a tuft at the ground from which arise several stems bearing numerous small lavender flowers similar to Babys-Breath. Give full sunlight. Flowers may be dried and kept a long time. Each 40c.

Sweet William

Newport Pink. **Homeland.** Red, white eye. Each 40c.

Thermopsis (Yellow Lupin)

Caroliniana. A good yellow accent plant. Spikes of yellow pea-like flowers in June. Each 40c.

Thalictrum (Meadow-Rue)

Adiantifolium. 2 ft. A plant grown largely for its maidenhair-fern-like foliage. Small white flowers in June. Each 40c.

Aquilegifolium. Graceful foliage like columbine; delicate lavender flowers on 3-foot stems. Each 50c.

White. Form of above. Each 40c.

Tradescantia

Purple Dome. Tradescantias bloom over a long period. They do not need any particular care; insects do not bother them. Foliage is decorative. Purple Dome is a fine grower and blooms freely. Flowers are brilliant purple. Each 40c.

Verbascum

Phoeniceum Hybrids. 2 ft. The plant consists of a group of basal leaves from which arise graceful spikes of flowers. Mixed colors. Each 35c.

Veronica (Speedwell)

Bluespire. 2½ ft. July–Aug. An improved form of *V. spicata*. The Speedwells make excellent plants for the sunny border. Long spikes of blue flowers. Very hardy. Each 40c.

True Blue. 1 ft. June. A dwarf form of Speedwell covered with striking blue flowers. Each 35c.

Vinca (Trailing Myrtle)

Minor, Bowles' Variety. An excellent ground-cover plant with dark green glossy leaves and blue flowers. Each 40c.

Viola

Catherine Sharp. A splendid blue Viola for the garden. Flowers large, on long stiff stems. Blooms very freely. Does well in light shade. Each 30c.

HEMEROCALLIS • Daylilies

Use Daylilies freely in your garden. They probably possess more good qualities than any other group of flowers. The iris-like leaves and graceful flowers on long stems will add charm to any garden or shrubbery border. They are very hardy and bloom freely when established. The blooming period lasts from two to four weeks for each variety. They will thrive on any soil with good drainage, in sun or partial shade, and require but little attention. Daylilies are not bothered with insect pests or diseases.

Circe. (Stout.) 36–48 in. July. Soft lemon-yellow flowers of medium size. Each 60c.

Dr. Regel. 24 in. May. Handsome rich orange-yellow flowers. Each 40c.

Duo Blooms. 24–30 in. June–Aug. Deep yellow blooms. There are two distinct sets of flowers. Each 35c.

Gold of Ophir. 4 ft. July–Aug. Waxy golden yellow flowers on strong stems. Dark green foliage. Long period of bloom. Each 35c.

Gloriana. 3½ ft. June. Large, clear orange flowers. Each 60c.

Hyperion. 4–5 ft. July–Aug. A very beautiful soft yellow-flowered, fragrant Daylily. Plant vigorous. Each 50c.

Imperator. 40 in. July–Aug. An English hybrid, with star-shaped flowers 6 to 7 inches in diameter. Rich orange-red with clear yellow throat. Each 40c.

J. S. Gaynor. 3 ft. July–Aug. Fine, firm, apricot-colored flowers. One of the best. Each \$1.25.

Kwanso. 4 ft. July–Aug. Vigorous-growing plant with rich orange-colored double flowers. Each 35c.

Mikado. 36 in. June–July. Orange flowers with a mahogany-red spot on each petal. Each 40c.

Modesty. 36 in. June–July. Medium-sized flowers of a glorious shade of chrome yellow. Each 50c.

Moonbeam. 5 ft. Especially desirable for background. Firm stems support the cream-colored flowers. Each \$2.00.

Mrs. W. H. Wyman. 42 in. July–Aug. Lovely light lemon-yellow blooms. Each 40c.

Old Ivory. 3 ft. June–July. Jersey cream shade; a delicate flower slightly whorled. Each \$2.00.

Patricia. (Stout.) 36 in. July. Flowers soft greenish yellow, with recurved petals; fragrant. Very beautiful. Each 75c.

Rajah. 3½ ft. July–Aug. Large, gaily colored English red blooms, with conspicuous eye-zone; throat pale orange. A heavy bearer. Each 85c.

Serenade. 4 ft. June–July. Light shade of yellow and pink. Petals twisted and crinkled. Flowers medium size. Each 85c.

Sunset. 42 in. July–Aug. Bright crimson-maroon flowers with deep yellow throat. Each 60c.

The Gem. 30 in. July. Deep yellow flowers. Each 35c.

Wau-Bun. 3 ft. July–Aug. Cadmium-yellow, outer half overcast with a delicate shade of fulvous-red. Each \$1.00.

LOVELY ANNUALS *for continuous bloom*

All annuals are flat-grown plants, once transplanted and will give splendid results

Except where noted, all are 40c. per doz. By mail, 45c. per doz.

AGERATUM

Blue Perfection. A tall variety for cutting, supplying dense heads of fluffy, light blue flowers so necessary in many bouquets.

Midget Blue. A uniform dwarf Ageratum that produces an abundance of blue flowers. Excellent for edging your garden.

Riverside. A very choice dwarf Ageratum for edging. Blue flowers grown from cuttings. 4 for 25c.; doz. 70c.

ALYSSUM

Little Gem. The ideal white-flowered edging plant. The plants are completely covered with snow-white bloom.

Violet. Similar to the above except in the color of the flowers. Shear off the dead blooms occasionally.

ANTIRRHINUM (Snapdragon)

Selected varieties of the ever-popular Snapdragon in the following colors: **Pink, Red, White, Yellow** and **All Colors Mixed.**

ASTERS

Giant Branching. Wilt resistant. Mixed colors.

COSMOS

Sensation. A very large-flowered variety. Blooms are larger if disbudded. **White** and **Mixed Colors.**

LOBELIA

Crystal Palace. Bushy plants covered with small, dark blue flowers. Foliage has a reddish tinge. A very popular edging plant.

MARIGOLDS

Easily grown on any soil and offering an abundance of cut flowers.

Guinea Gold. 2½ ft. Carnation-flowered type producing flowers 2 to 2½ inches across, of brilliant orange flushed with gold. Very choice.

Mammoth Mum. 2½ ft. The light sulphur-yellow flowers are fluffy and ball-like in form, 3½ inches across.

Yellow Supreme. 2 to 2½ ft. A large bloom of rich lemon-yellow. Broad, loose, frilled petals and honey fragrance. A superior variety.

5 Choice Dwarf Varieties

Harmony. Golden yellow bordered maroon.

Scarlet Glow. One of the reddest Marigolds.

Sunkist. Golden orange, anemone-type flowers.

Spry. Extra dwarf. Similar to Harmony.

Yellow Pygmy. Double; lemon-yellow.

PETUNIAS

Bedding. Very easy to grow, requiring little attention and giving a mass of color in the garden all summer long. In separate colors: **Blue, Deep Pink, Light Pink, Salmon, Red, White, Rosy Morn,** and **All Colors Mixed.**

Dwarf California Giants. Large ruffled flowers in various color combinations. This strain needs good soil and more care than the regular bedding Petunias.

Balcony Petunias

Large-flowered Petunias especially adapted for window boxes but also very fine in the garden. The long stems make them suitable for cutting. **Blue, Pink, White** and **Mixed Colors.**

All prices in this catalog are subject to change

PORTULACA (Moss Rose)

An excellent low-growing plant for a hot dry place. Our strain contains both single and double flowers in a wide color range.

SALVIA

Red. Spikes of bright red flowers in fall.

Blue. Light blue spikes. Fine for cutting.

SCABIOSA (Pincushion-flower)

Fast-growing annuals and an important cut flower. Medium-sized flower heads on long, graceful stems.

Mixed Colors.

VERBENA

Low-growing, colorful annuals suitable for edging or mass bedding. **Mixed Colors.**

ZINNIA

Dahlia and Giant-flowered. Separate colors: **Deep Rose, Soft Pink, White, Orchid-Lavender, Red, Yellow, All Colors Mixed.**

Pumila. Medium-sized flowers in three choice colors: **Salmon-Rose, White, Soft Yellow.**

Lilliput. Small flowers. Very free blooming. **Salmon-Rose, Red, Yellow.**

PERKINS JUMBO PANSIES

A selected strain of very large Pansies in a fine mixture of colors. Doz. 75c.

Potted Annuals

Everblooming Dahlias, Unwin Hybrids. Dainty small-flowered Dahlias with single to double blooms in a great profusion of color. Prefers partial shade. Each 25c.; doz. \$2.50.

Morning-Glory, Heavenly Blue. Huge, cheer-giving, light blue flowers in great profusion. 3 plants to a pot, 35c. per pot.

Petunias, California Giants. Mixed colors. Each 25c.; 6 for \$1.25.

Packing and Postage on potted plants, 10c. each; 2 for 15c.

NOTE: We will also have a nice assortment of potted plants suitable for window-boxes and cemetery planting.

Forget-Me-Not

Funkia, all varieties

Tradescantia

May We Suggest

For best effect on Perennials plant three of a variety together.

Plant perennials 18 inches apart each way.

Modesty is a beautiful yellow Daylily.

Arabis blooms very early. Plant early.

Viola, Catherine Sharp, should be in every garden.

For fragrance try Perkins Double White Pink.

Two hardy Geums: Fire Opal and Wilton Ruby.

Edgebrook Giant is a wonderful white Daisy.

Have you tried Lythrum, The Beacon? It is very fine.

IRIS

Each 35c.

- Black Douglas.** 38 in. A choice dark violet Iris.
Blue Triumph. 42 in. Very large flowers of heavy substance. Color a beautiful soft blue.
Ethelwyn Dubuar. 38 in. Fine large flowers of deep pink with delightful ruffling.
Dudrun. 36 in. Enormous, well-shaped flowers of pure white, dusted with soft gold at the throat.
Jean Cayeux. 38 in. A beautiful blending of coffee-brown with a golden glint.
No-we-ta. 35 in. A true pink with yellow flushes at the center. The whole flower is softly frilled.
President Pilkington. 40 in. A combination of violet, yellow and silvery brown.

Collection

1 each of above Iris, only \$2.00

DWARF IRIS

Each 30c.

- Brautjunger.** Lilac-white and purple.
Dixmude. Rich blue-purple bicolor.
Huron Imp. Rich blue standards and velvety blue-black falls.
Ladies of Peeling. Soft blue.
Lieutenant de Chavagnac. Pansy-violet.
Mignonette. White flushed pinkish mauve.
Negus. Deep velvety purple.
Nono. Whitish amber.
Statellae. White flushed yellow.
Summer Skies. Beautiful light blue.

Collection

3 each of the 10 Dwarf Iris, only \$7.50

POTTED ANNUALS

- Everblooming Dahlias, Unwin Hybrids.** Dainty small-flowered Dahlias with single to double blooms in a great profusion of color. Prefers partial shade. Each 25c.; doz. \$2.50.
